

Meet the Masters

A Program for Heart Rhythm Management Fellows

Toulouse
December
12-14, 2012

Transition to practice: Workshop on Lead Management

Organised by the Clinique Pasteur, Toulouse, France
(RETAC member)

Meet the Masters Course Director Pedro Brugada

Workshop Director Serge Boveda

What is the value of participating?

You will get access to the latest updates in lead management and to topics related to your professional development. You will be part of a diverse mix of independent experts and participants from across Europe. You will be able to exchange and interact in a small group which facilitates a high level of interaction, open discussions and sharing of best practices.

Upon completion of this program you should have a broader insight into & practice on:

With the growing number of implantation procedures, "lead management" becomes an important and tricky issue for EPs. According with guidelines, lead implantation is only the starting point of a much more complex process which includes:

- Lead design
- Lead management
- Lead reliability
- Lead extraction techniques
- Lead reimplantation

Workshop description

The unique curriculum of "Workshop on Lead Management" has been developed by Prof. Dr. S. Boveda, Workshop Director in close collaboration with Prof. Dr. Brugada, Course Director. This course offers a unique opportunity to learn about techniques and to interact with world experts on innovative treatment options for lead management. To reach maximal interaction while discussing on challenging cases and live procedures, only a small group of selected EPs (max 12) is invited to participate in this course.

Target audience

The "Meet The Masters Transition to Practice; Workshop on Lead Management" program has been developed as a continuum of the Meet the Masters program and designed for Fellows in the second phase of their Fellowship but is open also to all HCPs involved in lead extraction.

Accreditation

EBAC accreditation is in progress.

Accommodations

Rooms have been reserved for 3 nights (Dec. 11 arrival day) at Novotel Toulouse Centre Wilson, 15, place Wilson - 31000, Toulouse, France. This is a 3 day seminar. Participants should arrive the evening before and schedule departure after 14:00pm on the last day of the workshop.

For seminar logistics related questions, please contact Sonia Berkouk (sonia.berkouk@bsci.com)

**For seminar content related questions, please contact your Boston Scientific representative or
Katleen Cooman and Sandrine Masset at katleen.cooman@bsci.com and sandrine.masset@bsci.com**
